Online Associate Degree in Nursing to Bachelor of Science

For Associate Degree and Diploma Graduates

UH Manoa Nursing offers an online Bachelor of Science (BS) program for nurses with an Associate Degree in Nursing (ADN) or Diploma effective for students enrolling in August 2021. Admission will be offered in August and January to provide flexibility for students to progress at their own pace. With the BS degree, the graduate can proceed to graduate education and pursue career development. Graduates from non-UH System campuses have different requirement from UH graduates. UH System graduates are not required to have the RN license to begin the program.

Program Description

The program builds upon initial ADN nursing preparation with coursework to enhance professional development, and provide an increased understanding of the social determinants of health – the cultural, economic, and equity issues that affect the delivery of safe, quality patient care across all delivery settings. The curriculum includes state of the art coursework on evidence-based practice, genomics, population health, and pandemics.

The 30 credit nursing curriculum provides flexibility and can be completed in 2 or more semesters – both part-time and full-time routes are available. UH Manoa requires a student to complete 30 credits at Manoa to be awarded the BS degree.
Students take asynchronous online lecture courses while balancing work and family responsibilities. Worksite cohorts can be created in partnership with local healthcare organizations and agencies interested in increasing the number of BS prepared nurses delivering direct patient care.

Specific licensure requirements for admission are listed on the How to Apply page.

**Transcript Review**

A free, unofficial transcript review by a student advisor is available to prospective students to determine the possible length of study. The transcript review is unofficial and is offered as a guidance tool for prospective students. The official transcript review occurs once a prospective student applies to the program and submits all required documentation and fees.

Upon admission, the program advisor does a personalized review of completed college coursework to develop the plan for program completion. If a student’s previous ADN or college coursework does not meet the minimum requirements, additional courses may be required to meet the 120 credit UH Manoa requirement for the BS degree. For more information about credits, visit the Curriculum page.

**Fast Facts**

- Admission in January and August
- Asynchronous, online format for lecture courses
- Full-time and part-time options
- Experiential learning portfolio credit option available

**Experiential Learning Portfolio for Credit**

The admitted student with RN experience may request to receive
nursing coursework credit by submitting an electronic Experiential Learning Portfolio. The portfolio is a collection of descriptions and material that provide direct evidence of an individual’s learning, mastery, or accomplishments over time. The descriptions and exemplars may be drawn from an individual’s job and academic related experiences.

**Events for Prospective AD to BS Students**

We recommend that prospective applicants attend a Zoom informational session. Visit the UHM Nursing event page for upcoming events.
