Nursing – Graduate Program Overview

UH Manoa Nursing offers the master’s and doctor of nursing practice degree to prepare nurses with advanced knowledge and skills for the dynamic nursing profession. UHM nurses with graduate preparation provide direct and indirect patient care at an advanced level focusing on adults, families, geriatrics, and population health; conduct research; teach; lead health systems; create public policy; and implement evidence-based solutions in healthcare. Nurses with a master’s or doctoral degree have opportunities to impact the systems level design and implementation of care.

Graduate nursing courses are offered in online, face-to-face, and hybrid (blended) formats.

Degrees

- **Master of Science**: Prepares the nurse for an advanced role in population health.
- **Doctor of Nursing Practice**: Prepares the nurse for specialized advanced nursing practice and organizational leadership.

Specialties

- Advanced Population Health Nursing (Master of Science)
