PhD in Nursing

The PhD program is designed to prepare visionary scholars with expertise in conducting research to improve the health of culturally diverse populations, especially in Hawaii and the Pacific Basin regions and countries. The curriculum will establish a strong foundation in research methodologies with each course linked to previous and subsequent courses contributing to the development of the dissertation study.

The full-time on-campus 3 to 5 student cohort model program of study admits students every other year. It is rigorous and requires students demonstrate strong critical thinking and writing skills that allow them to coherently and logically communicate their course assignments, and ultimately, their dissertation. The program enrolls post baccalaureate and higher degree students, and is designed to be completed in 3 years.

PhD Degree Entry Pathways

Students can enter the PhD program through one of these pathways.

- RN with a bachelor’s degree in nursing
- Graduate Entry Program in Nursing – Non-nurses with a non-nursing bachelor’s degree
- RNs with an associate degree in nursing and a non-nursing bachelor’s degree
- RNs with a master’s degree in nursing or other health related field

Fast Facts

- Full-time, on-campus 3 to 5 student cohort program designed to be completed in 3 years
- Individualized advising and guidance from faculty
advisor
- Interdisciplinary graduate coursework that fosters team science and research collaboration
- 57 didactic credits plus 1 additional credit per semester for dissertation work until completed

Program Outcomes / Competencies

Students completing the PhD degree in Nursing will demonstrate the ability to conduct original publishable research, ability to communicate to various audiences, conduct research in an ethical manner, integrate and apply key concepts, information, and methods into their work. The program will graduate nurse scholars capable of leading and functioning on scientific teams addressing complex health concerns.

Student Funding & Tuition

The funding offer may include full or partial support including:

- Graduate research assistantship that includes tuition support plus salary for part-time (.50 FTE/20 hours a week) work on research projects with school faculty
- Robert Wood Johnson Foundation Future of Nursing Scholars – a funded scholar program providing tuition, a graduate research assistantship, and professional development
- School scholarships

Partnership in the Nursing Education Exchange

University of Hawaii at Manoa is a member of NEXus (The Nursing Education Exchange). NEXus is a collaboration between participating doctoral programs in nursing that allows doctoral students enrolled at member colleges and universities to take courses that may not be offered at his/her home
institution for a common tuition price. Students may fulfill requirements by enrolling in NEXus courses.
