GEPN Student Advisory Council

The Graduate Entry Program in Nursing (GEPN) Student Advisory Council seeks to promote program quality, strives to foster community within the school, and, most importantly, advocates for student support. Council members represent the current and the most recent GEPN class which enables the group to maintain momentum and build on past successes.

Members of this student-led Council serve as liaisons and foster communication between students and the Dean’s Office. The Council participates in program improvement through representation on school curriculum committees and review and validation of aggregate program effectiveness results. The Council makes recommendations to the Dean regarding: program curriculum delivery; evaluation of courses, programs, and teaching; academic support services; and student wellness.

The Council also plans and implements initiatives of interest for GEPN students such as University and community outreach, mentoring, community service, and the UH Manoa Graduate Student Organization (GSO).
