

Student Nurses' Association's Bone Marrow Drive Registers 60 New Donors

On Thursday, October 30, 2014, Student Nurses' Association (SNA), a student-led leadership non-profit organization registered with UH Manoa, held a Bone Marrow Donor Registration Drive at Campus Center. SNA partnered with the Delete Blood Cancer organization that provided the supplies necessary to hold a successful drive. The registration process was fairly simple, and interested participants filled out a registration/consent form and then swabbed the inside of each of their cheeks for 30 seconds.

The event was a success! In total, SNA added 60 new potential bone marrow donors to the registry! For more information about SNA,

visit <http://www.nursing.hawaii.edu/sna> or contact

SNA President Chelsey

Stout and SNA advisor Gary Glauberman at glauberm@hawaii.edu or (808) 956-3390. For information about becoming a bone marrow donor, contact Delete Blood Cancer
